Dex-O-Tex Decor-Flor M Marine Decking Product Description Sheet

TYPE

Dex-O-Tex Decor-Flor M is a thin-section seamless primary deck and floor covering comprised of attractively colored color coated quartz granules embedded in a clear, catalyst-reacted epoxy resin binder. It is applied to a thickness of approximately 1/16 inch (1.5875mm) and a cove base can be incorporated to form a continuous joint-free surface. Decor-Flor M develops an exceptionally good bond when applied directly to cleaned metal surfaces. Terrazzo M Fine has good resistance to water, cooking fats and greases, and will provide a durable decking for commissary spaces and interior sanitary and wet spaces. Its natural textured surface provides good slip resistance
